WITH GREAT THINGS COMES GREAT RESPONSIBILITY

We don't just care about our products, we care about how they come to be. So we are picky when it comes to our materials. They must be fine and luxurious, but also environmentally and socially responsible. Our leather is traceable and contains no harmful chemicals. We use only feathers from animal production. Our wood is almost entirely from sustainable forests. Our wool is IWTO certified and most of our production is from EU countries, ensuring quality and good working environments. Because great values are more important than just great value. And as something new, we're happy to give you a 5-year guarantee on every single design in our collection.

At Bolia.com we carefully follow and respect the EU REACH standards. With this guideline in hand, you can learn about risky substances, which do not exist in any of our designs.

Gaia sofa series

Design **Busetti Garuti Redaelli**

Wrap yourself in comfort and elegance with this sleek and minimalist sofa complimented by luscious pillows. Supported by a slender steel frame, this sofa is a stunning conflict of design, letting you tuck and hide in a striking eye-catching statement piece.

Lifestyle pictures can differ from the Steelcase selection and are not contractual. Please refer to the Design Gallery page 074-093 for the final curation.

Aura sofa series

Design **Charlotte Høncke**

This sofa is so elegant, simple and light that it almost floats. Its round, airy appearance is so delicate to sit in that it almost feels like sitting in a cloud. The thin metal frame provides a sharp contrast and helps keep it on the ground so you can enjoy it in one of the three colours you like.

Madison sofa series

Design **Glismand & Rüdiger**

As if it was taken directly from a grand corner office on Madison Avenue in the 1960s, this is a classy and beautiful sofa series. It comes in three different models plus a footstool – all made with the same solid wooden base, rounded corners and perfectly handcrafted details.

Mara sofa series

Design **Kressel + Schelle**

Just like the most interesting people, Mara has a personality with many facets. The design is elegant and attractive with a hard exterior, while the inside is inviting and soft. This is the kind of sofa you would like to lounge on all day long. You can easily end up spending a few hours on it simply relaxing, doing absolutely nothing. Should you feel like taking a nap or just want a lounge sofa, you can pull the seat out and elegantly add an extra 15 cm.

Abby sofa series

Design **Outofstock**

The Abby sofa is truly a design to indulge in. Audacious organic curves and a strict wooden frame create a beautiful contrast in this piece. Created by design group Outofstock, it demands attention and delivers comfort at the same time.

Liva sofa series

Design **Charlotte Høncke**

The Liva is a sofa that stands out from the crowd. There are clear references to 50s style and a touch of "Gentleman's Club" with the characteristic wings, high back and striking lines. But Liva is in a class of its own. It invites you to sit down and have a cosy chat - and there's even room to have a lie down.

Abby sofa series

Design **Outofstock**

Round yet sharp. The design group Outofstock has designed a simple sofa on a minimalistic and stylish frame that is softened up and given a unique look with the organic round shapes on the back and armrests. In fact, the armrests are so round and comfortably shaped that they work just as well as a pillow if you have a tendency to doze off on the sofa.

Pepe sofa series

Design **Kaschkasch**

One of our newest brand classics is Pepe, which is a timeless series of sofas. The series is underpinned by a painted frame, which creates the framework for the softest seat and back cushions. We think that the design duo Kaschkasch has created a furniture series which unites the hard exterior with the comfortable interior in the most beautiful manner.

Cloud sofa series

Design **Yonoh Estudio**

Put your feet up and your head in the clouds with the delectable Cloud sofa series. Designed by Yonoh, it is simplicity, clean lines and minimalism in the most inviting way. With its voluptuous curves and tight minimalistic frame, combined with excellent comfort and quality, this sofa is the epitome of modern luxury.

Between sofa

Design **Sara Polmar**

This cheeky little piece is hard to put in a box, but not in your home. Somewhere between an armchair and a sofa, you decide how to use it. Composed of our most beautiful fabrics and most contemporary colours, it can be almost anything you want it to be.

Madison daybed

Design **Glismand & Rüdiger**

Madison Avenue during the sixties says it all. Every bit as stylish as an advertising executive but with more honesty, it oozes elegance without selling too hard. Available in three different models on top of a solid walnut oak or beech frame.

TAILOR-MADE FOR YOU

Our designs are made for the picky, the choosy, the ones who know what they want and how they want it. Available in a million ways, and in that special way that fits you. Only you. So let your creativity run wild when choosing model, size, cover, colour and material. Find your own way of combining these features or let our design specialists find the perfect match for you in one of our stores. Of course, we'll handcraft it all especially using our finest materials and a big scoop of love.

WHAT IS DONE IN LOVE IS DONE WELL

Bolia Design Team

No two people are alike, and the same goes for our more than 30 gifted designers. A beautiful mix of upcoming designers and established names. This year, 14 new designers have been added to the team and are behind the new collection built on love, quality, craftsmanship and sustainability. No matter where in the world they come from, they have a passion for defining New Scandinavian Design. They are the people that can make you feel at home, the people that know you better than you know yourself, and the people that make sure no one lives like you.

THE FAMILY OF FABRICS

We've introduced a lavish new selection of luscious colours and textiles for you to indulge in, including a sensuous and daring velour. And no matter how daring you want to be, your choice will be environmentally and socially conscious. All our fabrics have been made to fulfil European REACH standards, securing no harmful chemicals, our Wool is IWTO certified and most of our production is from EU countries, ensuring quality and good working environments. You're spoilt for choice and comfort so take your time. The perfect match is out there for you.

THE LUXURY OF LEATHER

Nothing compares to the luxury feel and contemporary finish of genuine leather. Our extraordinary quality and fine selection of colours will last for generations and only become more beautiful over the years. And to stir things up, we've added luxurious suede and nubuck styles to our collection. Your future classic starts with your choice of leather. And no matter what you choose, we ensure you that it's free from harmful chemicals and 100% traceable, which means it always can be traced from manufacturer to consumer. And that's good to know since we care about animal welfare, the environment and the people behind it all. We hope you feel the good vibes as much as we do.

Valby dining chair

Design **Glismand & Rüdiger**

Danish simplicity at its most pure. The Valby dining chair is the modern heritage of classic design. Durable and sturdy construction tapers to thin elegance on the edge of your seat and the top of your back. Clean lines and ergonomic posture are at the heart of this Glismand & Rüdiger piece.

Out dining chair

Design **Ramos Bassols**

Everyone needs to get out more and this chair comes with you. Comfortable around your dining table or on your terrace this chair is elegant but anything but delicate. The curved frame lends offers an airy and transparent feel and will hold both upholstered and solid seats, for indoor or outdoor placement.

Sleek dining chair

Design **Says Who**

This is what we call a sculptural piece of Nordic woodcraft. Sleek is the result of a desire to utilize milled, solid wood to define a new, modern chair with classic references and a timeless appeal. And with a rounded seat with a soft curve, it's a pleasure to sit in - for short talks or longer conversations.

Mood dining chair

Design **Michael H. Nielsen**

The Mood series is a fun and daring combination of shapes, materials and different kinds of woods. If this is the style you are looking for, we are eager to show you the rest of the series, which includes a square dining table, a dining chair, a coffee table in two different sizes and a highboard.

Meet dining table

Design **Michael H. Nielsen**

Big dinners, small dinners, important dinners. Whatever your needs are, the Meet table will meet them. Michael H. Nielsen has created a classic table with a very contemporary look. Different woods and the possibility of a granite extension add that unexpected twist.

Join dining table

Design **Allan Nøddebo**

Join is a circular dinner table that fits up to 8 people. The combination of the natural and painted wood gives Join its character, and who wouldn't want a dinner with a bit of that?

Pod coffee table

Design **Busetti Garuti Redaelli**

This suave little piece leaves little to the imagination. Luxury and minimalism shine bright, showing off its slender frame and seductive marble top. And if one amazing table isn't enough, different height will nestle together in a striking ensemble.

Drum coffee table

Design **Kaschkasch**

More bang for your buck, the drum table comes in two different sizes with tops in marble and glass

Tuk coffee table

Design **Büro Famos**

A contradiction in construction this marble top has no frame, with its turned wooden legs sneaking into metal fixtures in the top. Different heights let you put several together and according to the designers it evokes 'recollections of prehistorical pile dwellings'. We're not sure what this means either, but it looks amazing.

BE SKILLED, PASSIONATE AND BRAVE

At Bolia we are more than designers. We are craftsmen. We don't just draw, we build. Our passion for materials, how they feel, how they bend, smell and age, ensures our solutions are high quality, thought through and unique. We believe being good at one and not the other is too easy. You have to be able to feel the love, sweat and emotions that have been put into every single design, every piece of wood, glass or metal. You have to understand where and how every sourced material is produced, not just to ensure quality at every turn, but to know, and be satisfied, that every piece comes with a clear conscience, ethically and environmentally. Can you feel it?

And as something new, we're happy to give you a 5-year guarantee on every single design in our collection.
