## Why Buoy?

When we're not standing, leaning or walking around, we're most likely sitting—which can take up a good portion of our day. But there's more to sitting than you might think. It should promote and support seated movement, be comfortable regardless of a person's size or posture, and even be fun too.

## Sitting is only the beginning

After researching multiple small businesses, we noticed something: people are mobile, even when seated. Whether you're a knee bouncer, a pencil tapper, or you've got jazz hands, Buoy lets you move freely. So feel free to pull up a seat. Or lean in. Or hunker down. Mobility matters.

## Buoy by the numbers

Movement is good for you, which is why Buoy swivels, turns, tilts and moves up and down. It's active sitting. It keeps minds sharp and our bodies active. So go ahead, have a seat. With six bold colours to personalise, Buoy is a moving experience.

## Well-adjusted

Size doesn't matter—Buoy was designed for everyone. Which is why Buoy provides 140mm of height adjustability with the lift of a lever. Plus, a curved base encourages active sitting.

## Mobile design

With a built-in handle and weighing only 9kg, Buoy is designed to go wherever you go. Got a touchdown meeting to attend? Want to focus on your thesis? At work, at home, or anywhere in between, Buoy gets around.

## Anyone, Anytime, Anywhere

The day doesn't stop at five o'clock, and neither does Buoy. Designed to be a part of people's active lifestyle, Buoy is as comfortable at home as it is in the classroom and the office. Or anywhere else people sit, for that matter.

## SUSTAINABILITY

At its heart, sustainability at Steelcase is about people. It's about creating and supporting the economic, environmental and social conditions that allow people and communities to reach their full potential.

**Research and insights direct our path.** It's not only about creating goods, it's about creating good. It's not only about creating value, it's about living our values. It's not just about reducing our footprint, it's about expanding our reach. It's about creating lasting and meaningful change to enable the long-term wellbeing of current and future generations.

**Innovative products and solutions result.** In the development of our products, we work to consider each stage of the life cycle: from materials extraction, production, transport, use and reuse, until the end of its life. We demonstrate performance through third-party verified certifications and voluntary product declarations.

Steelcase's sustainability promises, actions, and results are communicated in an annual Corporate Sustainability Report.
