

In & Out

Integrated solution. The Steelcase Worktools IN & OUT allows easy and above desk connection access to plug in equipment. Designed for conference, meeting and training room applications, as well as hot desking.

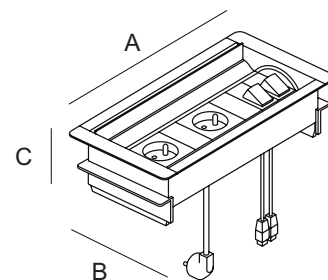

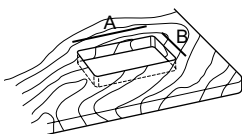

- Entirely opens (pivots at 180°).
- A practical lid allows connections to be kept out of sight even with equipment plugged in.
- Basic configuration: 2 power and 2m cable
- Custom configuration possible : number and type of connections, length of cable.
- Power connections available : France/Belgium, Schuko (DE) and British (individually fused).
- Data connectors available in Cat.5 e and 6 (supplier standard).
- Other connections: VGA and Audio.
- Meets BSI 5733 standards (European Standard in force).
- Body in aluminium, anodised finish.
- Injection moulded plastic (aluminium).
- Cutout cost not included, please contact Steelcase.
- Warranty 2 years.

Dimensions :

A = 300mm x B = 150mm x C = 93mm
(Basic model)

Cutout :

A = 272mm x B = 132mm
(Basic model)
