TalkTime Quick conference connection

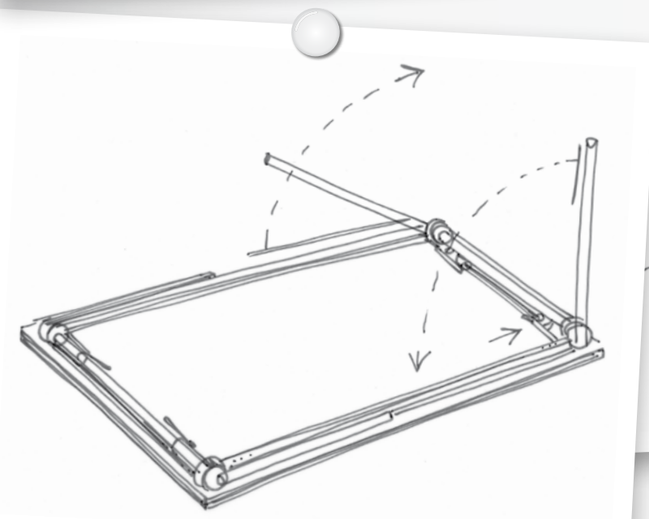
Steelcase

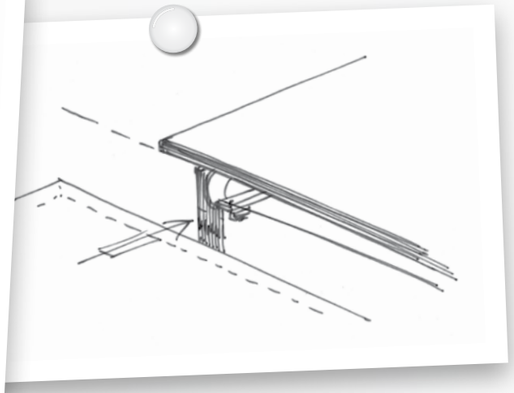
C4577

Observations & Insights

1 - Most conferencing tables are not intuitive to set up and use.

2 - Frequently changing layouts and installations require a high level of durability.





TalkTime Quick conference connection

Setting up a large conference space can rapidly become a nightmare without the right furniture. Schedules change at the last minute and there is rarely enough time to prepare.
That's why Steelcase concentrates on creating products that make life easy. With simple-handling, efficient storing and a high level of durability and stability, **our new folding table helps cut out the difficulties associated with arranging large meetings and can speed up room use and improve productivity**.

Add an attractive design and comfortable chairs and everyone is happy.

Why TalkTime ?

1 - Quick and easy installation
2 - High stability and durability
3 - Space efficient storing

How it works

High stability and durability

A crucial feature of any conferencing table is structural robustness. TalkTime employs horizontal bars for high level quality and reduced surface-top material. It also comes with a safety mechanism to avoid unintentional folding of the legs. Select from different work-top thicknesses: 25mm, 19mm, 14mm.

Space efficient storing

No tools or technical knowledge needed. TalkTime's legs can flip up quickly, easy and safely for space efficient storage.

Quick and easy installation

Integrated connections allow users to create different installations by sharing legs and using junction tables.

Push connector

Hook 2nd table

Connect table

Ideal for any conferencing set-up. Configurations of 2,3,4,5 or more tables can be created at no extra cost.

System overview

Table top shapes	Dimensions in mm		Corner Radius 3mm
	W 1200	D 600 | 700 | 800 | 900	x
	W 1400	D 600 | 700 | 800 | 900	x
	W 1600	D 600 | 700 | 800 | 900	x
	W 1800	D 600 | 700 | 800 | 900	x
	W 800	D 800	x
	W 900	D 900	x
	W 1000	D 1000	x

TalkTime environmental performance

You need clear evidence to support your environmental credentials. We can provide it.

End of life

Up to **99%** recyclable by weight.

100% recyclable LPDE film for packaging. **40%** of the EPP corners used for packaging are reused.

Plastics parts clearly labelled for easy sorting and effective recycling.

Material

23% recycled content by weight.

PVC free.

30% recycled LDPE film (Low Density Polyethylene) in packaging.

Use

Designed for a long product life.

Replaceable parts.

Maintenance information available on Steelcase.com.

Transport

Manufactured close to customers, in Europe.

Minimised packaging weight and volume to improve filling rates and save energy for shipping.

Production

ISO 14001 and EMAS certification of the Rosenheim site (Germany).

Water-based glue for edge banding.

Powder coat painting: VOC-free and free of heavy metals.

You require official certifications. We can deliver them.

Product Environmental Profile (PEP). Based on ISO 14021, its purpose is to communicate precise and verifiable information on environmental aspects of the product during its life cycle.

Blauer Engel. This German environmental certification is awarded to products with a low environmental impact.

PEFC. The wooden components are PEFC certified (Programme for the Endorsement of Forest Certification), ensuring that wood originates from sustainably managed forests.

E1. The particle boards comply with the “E1 standard” guaranteeing a low level of formaldehyde emissions.

You care about the end of use of your furniture.
We offer options - be it refurbishing, take-back, charitable donation or recycling.
