

Social and Environmental Commitment

At Klassis, we are committed to conducting our business in a socially responsible and ethical manner. We recognize our responsibility to contribute positively to the community that supports us. We recycle as much as we can and are passionately committed to reducing our ecological footprint by being energy neutral and promoting alternative transportation methods for commuting.

Our employees are one of our most important assets. We are proud to provide a work environment where employees are appreciated, valued and given regular feedback. We promote based on merits and skill and do not discriminate based on age, color, creed or relationship orientation.

Our company established Social and Environmental management system which helps to comply with applicable laws, regulations and customer requirements, satisfy our company requirements properly and achieve our environmental targets. Our Social & Environmental management system documents are available in following document.

Klassis ISEMS v1.0
2015.pdf

Our EMS defines requirements to reduce the environmental impact of our company. Our commitment to continual improvement led us to create our voluntary commitments to reduce our carbon footprint. We conduct reviews of our environmental performance and progress, in order to create a cycle of continual improvement.

Klassis is committed to establishing, promoting, maintaining and improving a culture of sustainability and environmental responsibility by our staff.

Klassis is committed to providing timely management review of sustainable business operating procedures and practices. We commit to track, measurement and report on our performance of the implementation of sustainability practices with a commitment of continual improvement in these areas.

We look to be a partner in providing sustainable products during the all the procurement processes of our clients.

With regards to environment-related incidents and penalties we had no records of environmentally relevant incidents and had not been charged any penalties. And we had no records of industrial accidents.
