

LESSTHANFIVE CHAIR

Coalesse Design Group + Michael Young

coalesse®

Modern craft.

Handcrafted from carbon fiber. Surprisingly light. Exceptionally strong. LessThanFive invites a new creative freedom.

Carbon fiber is changing the way we approach design. We can construct forms that defy structural possibilities and apply finishes that upend expectations. At its core are thousands of tiny fibers, woven together into a fabric of unrivaled strength and lightness that enables us to push the boundaries of engineering and design.

Light and easy to move, LessThanFive makes reconfiguring social and collaborative spaces effortless.

Enduringly unexpected.

Available in a range of handcrafted finishes, LessThanFive challenges structural perceptions while inviting personal expression. For all that is fleeting, carbon fiber endures—channeling the future of modern craft.
