Lockers Collection Storage

Storage can no longer just store. Whether owned by an individual worker, or placed in a nomadic space, the new line of lockers provides personal storage, privacy and space division. It fosters collaboration with the ability to display information and keeps team members connected by creating a shared space. Lockers are a versatile tool to use throughout the office ecosystem.

# Shaping the new office landscape

As the nature of work shifts from creating alone to creating together, a new office landscape is emerging. It's an environment that hosts spaces for time alone and time with others, often in shared spaces. As the office evolves, storage needs to evolve with it.

# Versatility across the office

The new lockers portfolio fits users' needs anywhere in office. A variety of sizes offer storage for everything from small personal items to luggage and wardrobes. Different heights and widths provide options to create space division in the open plan. The ability to add whiteboard surfaces gives residents or nomads a place to share information with their team or spontaneously collaborate. Lockers within reach help create a home base for mobile or resident workers, letting them focus on work and not the security of their things.

# Personalised storage

Express your brand and culture with a wide range of materiality options. Lockers fit any aesthetic with choices in melamine, metal or textiles in a variety of colors.

## MOBILE WORKER

Lockers allow mobile workers to settle into a space quickly, giving them peace of mind and a place to store their things out of the way.

#### ASSIGNED MOBILE WORKER

Assigned lockers give mobile workers the much needed place to store personal belongings as they move throughout the office, allowing space to stay clear for other nomadic workers.

### COLLABORATION

Give workers a space to create together. Lockers with whiteboards or pinnable textile foster collaboration while providing valuable storage space on the opposite side.

### RESIDENT WORKER

Larger lockers offer a convenient place for coats, gyms bags and lunch, letting residents get to work and stay organized.

### SPACE DIVISION

Create neighborhoods, meeting spaces, a team zone or a space to rejuvenate. Lockers provide a shield for those trying to focus and give a sense of ownership to teams by defining a space.

### TEAM STORAGE

Shared storage between team members saves time and helps keep projects organized.

# Locks options

The Lockers Collection offers diverse locking systems, from traditional key locking systems to more advanced keyless solutions. Intuitive, keyless locks are easy to use and to access. Providing enhanced management opportunities, a master key for emergencies and battery back-up.

## RFID

A quick swipe of a badge accompanied by a visual and audible indicator easily opens the locker door.

## KEYPAD The electronic keypad is a familiar and simple solution, allowing everyone to use lockers by setting up a personal digital code.

DIAL

The manual dial lock is a "battery-less" keyless lock solution. Simply rotate and enter the user selected code.

**KEYS LOCK** Keyed locks are the classic lock solution for lockers and available on all storage ranges.

# **Volum Art Lockers**

Volum Art is the perfect solution for residents who need storage close by. Bring the outdoors in to increase worker wellbeing with options for planter and open box shelves. Foster connection and impromptu discussion among team members with standing height cabinets.

#### SUSTAINABILITY

### DESIGNING FOR THE ENVIRONMENT REQUIRES INNOVATIVE THINKING AND SOLUTIONS.

At its heart, sustainability at Steelcase is about people. It's about creating and supporting the economic, environmental and social conditions that allow people and communities to reach their full potential.

Research and insights direct our path. It's not only about creating goods, it's about creating good. It's not only about creating value, it's about living our values. It's not just about reducing our footprint, it's about expanding our reach. It's about creating lasting and meaningful change to enable the long-term wellbeing of current and future generations.

Innovative products and solutions result. In the development of our products, we work to consider each stage of the life cycle: from materials extraction, production, transport, use and reuse, until the end of its life. We demonstrate performance through third-party verified certifications and voluntary product declarations.

Steelcase's sustainability promises, actions, and results are communicated in an annual Corporate Sustainability Report.
